

West Pikeland Environmental Advisory Council Citizen Survey

The West Pikeland Township Environmental Advisory Council (EAC) would like to know your concerns regarding local environmental issues. Please read the list of topics below and indicate your level of concern *on a scale of 1 to 10* (1 is least concerned and 10 is most concerned.) And let us know if you are interested in attending our meetings and learning more about what we do. Thank you!

Topics of environmental concern:

Addressing Invasive species (animal and plant) _____

Increasing biological diversity (animal and plant) _____

Household waste reduction, including single use plastics _____

Water issues: stream quality and stormwater runoff _____

Reduction of lawn and agricultural chemical use _____

Naming of heritage trees and stream tributaries _____

Development of a township climate action plan _____

Other topics of concern: _____

I am interested in learning more about the West Pikeland Environmental Advisory Council.
